

UUCM HVAC Capital Campaign

We now face a major expense to replace our failing HVAC system with a greener, more efficient option. This is certainly consistent with our UUCM values. Bid estimates that have come in are significantly lower than we had expected, but it will still cost us a lot of money. We need to have all pledges paid by June 2025 in order to reduce interest payments on the loan we will need to take out. With each of us making a new financial commitment to maintain this church building that means so much to us, we can be both warm and cool for many years to come.

Yes, I want UUCM to stay warm and cool!
